

ELECTRICITY SMART METER INSTALLATION - MISSED VISIT

Dear Property Owner,

The Raymond Mhlaba Municipality team visited your property to install an electricity smart meter. Unfortunately, there was no one available at the property at the time of the visit, and the installation could not be completed.

The property owner is strongly advised to contact the following Conlog representative to arrange a suitable date and time for a follow-up installation: **Thabo Motloung – 081 004 6794**

Please Note: Failure to make the necessary arrangements for the installation may result in the property owner being held liable for non-compliance with applicable NERSA regulations and other relevant legislation and municipal requirements.

For further assistance, kindly contact customer care services at 046 645 7478 / customercare@raymondmhlaba.gov.za.

Your cooperation is appreciated.
